Village to Get First Traffic Signals Soon

Palm Springs has been assured of having its first traffic signals installed at two dangerous inter-sections within the city limits.

The State Division of Highways has completed a survey of the main road arteries in this community, and has come up with a plan to install signals at two major innity, and has come up with a plan to install signals at two major intersections at Sunrise Way and Highway 111, and Indian Aleeune and Palm Canyon Drive.

City manager R. W. Peterson said that the Division of Highways also recommended that other signals could be installed at Indian Avenue and Ramon Road, and Indian Avenue and Tamarisk.

City Engineer Frank Hamersch lag reported that the local traffic survey has been completed but the figure has not as yet been

Cost of the signals proposed by the state at Sunrise and Highway 111 and Palm Canyon Drive and Indian Avenue has been set at \$19,500 and the cost will be divided between the city and the state. Cost breakdown on each of the projects will run 50-50 for installation of signals at Sunrise and the state highway, and one-third from the city and two-thirds from the state on the other installation. The City of Palm Springs orig

inally requested the state to make the traffic signal survey, and now that an answer has been received it may be several months before action will be taken on the instal-

Business Plot Plans Approved

Plot plans for small businesses were approved last week by the county planning commission for five businesses in the desert area.

Approved were: J. J. Helbert's trailer sales, 70-145 Highway 111, Cathedral City-Palm Desert area; Cliff Henderson's real estate of fice, off Highway 111, near Larks-pur Lane, Palm Desert; I. May-er's tile business in Tramview; Claude Allen's fence materia! sales office and yard in Tramview; Stanley Sayle's office building, off Highway 111 between San Marcos Avenue and Las Palmas Avenue, Palm Desert.

Fire, Fire, Fire! Where Is Question

Two fire calls were answered by the Fire Department last week with both proving difficult to locate.
The first at 6:42 p.m., Wednes-

LOOKING AHEAD

One of the most significant indicamade by the Palm Springs Resort Area during the past 12 months was the sucof The Desert Sun to a daily newspaper for an 8-month period beginning last October. Always a good index to the character and prosperity of any community is its newspaper. So well read and patronized for the entire period were the daily editions that it was clearly established that Palm Springs had grown to the point where it needed and could well support a daily newspaper. Acceptance of the daily the first year exceeded all expectations and probably set a record in California.

After three months on a twice-a-week basis, The Desert Sun resumes publication with this issue of the daily with its coverage of state, national and international news in addition to its full report of local events. Encouraged by wholehearted acceptance of the daily during its first period by both readers and advertisers, we have made numerous improvements which will make possible an improved and enlarged service to the Palm Springs and the surrounding communities. By taking over the adjoining large room (formerly occupied by Kelley's furniture) we have provided double the working space in addition to basement storage facilities for newsprint. Mechanical, photographic and many other facilities have undergone improvement during the summer.

New Radio Tie-In

Augmenting its full daily news report, The Desert Sun will keep residents of the desert area informed of important news happenings through the facilities of Radio Station KDES which will be opened about Oct. 1 by George E. Cameron, Jr. Studio of KDES will be located in the same building with this newspaper, the area's most complete news center. Bulletins of important news events from near and far-and results of sports events-will be flashed to listeners in the first timely and thorough radio news coverage in this section. Operating in the center of the dial at 920, Beaumont, Twentynine Palms and Indio.

From the first flash on the air to the tions of the growth and steady progress detailed newspaper stories, residents and vacationists will be kept in touch with all that is going on through this cess which accompanied the conversion timely and comprehensive news coverage which marks a new step in the growth of the Palm Springs area.

Attracting New Capital

There is every reason to believe that the Palm Springs area has launched on a new era of growth and development, We see signs of it on every hand. New capital is pouring in and providing new ; homes and recreational facilities that will attract hundreds of new residents and thousands of new vacationists during the next year. Improved highways in the area and between here and Los Angeles, the prospect of improved air service and a stepped-up promotional program will all contribute to bringing more people to live and vacation here.

This resort area will also benefit greatly by the bringing to Palm Springs. of many more conventions. El Mirador alone, with its year-around convention promotion, will have one or more groups meeting here almost every week. These gatherings, in addition to contributing much to local prosperity, bring many people here for the first time, who might never have come otherwise but will return time and again.

A Real Challenge

There seems little doubt that this next year will be the most prosperous in the history of Palm Springs and that continued growth is bound to follow. There are many ways that a daily newspaper can assist in the promotion and development of a growing community like Palm Springs and the surrounding resort area. The Desert Sun intends to make full use of all of them and is staffed and equipped to do so.

It is a real challenge for a newspaper to serve a fine community like Palm Springs and keep pace with its rapid growth. We at The Desert Sun are fully aware of this responsibility and opportunity. Our aim is to produce a newspaper of which the whole community can be proud, and to reflect the fine characteristics which have made Palm the new station will reach out to Hemet, Springs one of the nation's outstanding places in which to live or vacation.

BENEFIT OF THE PROPERTY OF THE BILL RASHALL

Here we are again with The Desert Sun on a daily schedule. And a daily grind too, which on

occasion shreds nerves. Comment about the desert regarding this newspaper is good. There are many who say it could be better. It's toward that goal are constantly striving. Once we have reached it, however, we will all strive to make it better than good and reach for excel-

In our travels across the country we have found that many, ever so many newspapers pub lished in communities as large as ours fall far beneath par. The paramount reason is that most communities do not have the endless type of stories and the pic-ture possibilities which occur in the Palm Springs resort area.

A NEWSPAPER REFLECTS, actually mirrors the kind of comin which it is published We desire to more thoroughly mirror and reflect the beauty and life of this entire desert.

And we can if: You good people tell us what is

happening about you. Send in pictures for publication which in the opinion of the editor will make good news copy doing so, remember that no picture is returned.

'You write letters to the editor of the publication about your neighborhood, politics on a local state and national level.

When something occurs which is no good for your and our com-munity, please let us know so that the occurrence may be thoroughly investigated by trained factual reporters.

IN OTHER WORDS, The Desert Sun is your newspaper. What it is today and what it may become tomorrow is positively in the hands of its readers. are the bosses and figuratively the owners.

By assisting The Desert Sun in all of its departments you will not only assist in making Palm Springs and its resort area a better place in which to live but you will have a better newspaper newspaper which you may tell the world is the best.

Unedited is always in need of assistance. I too would like to hear from readers of this column aimed at making it better and more comprehensive. There are many news items that may not stand as a story, but which could find expression in a column. So I too am asking for help. It's a tough grind to write a column each day and to find each day's production excellent. No columnst produces a good or excellent column each day anywhere. But with your help and criticism to-

gether we may turn out something worthwhile.

MARK THIS DOWN in your record book: September 1 in Palm Springs and the entire resort area saw more visitors crowding into hotels, restaurants and night clubs than ever before at this time of the year. Every hotel open was sold out by Friday night. Visitors filed into the Palm Springs Police station seeking inormation about hotel accommo-

The Doll House which opened formally Saturday at 4 p.m. began to fill early and by 8:30 p.m., the place was jammed and over-flowed into the patio.

But despite this opening, usually one of the big nights in Palm Springs, the Starlite Room of the Chi Chi had every niche and chair occupied for the first and second show. The restaurant sec-tion and the Blue Room were also filled to capacity.

ACROSS THE STREET at the Bali Bali it was an effort to move through the crowd. The Biltmore which remained open all summer saw the Garden Room tables and every seat of the bar occupied.

Down to the Desert Air Hotel,

Hank Gogerty said that business was twice as good as it was open-ing night which occurred on Friday "and every room and cottage filled," he added.

Into the Palm House for a gander and the place was teeming with visitors dining and quaffing. On Highway 99 scanned from the Del Sol Road automobiles were moving bumper to bumper Friday night en route, no doubt, to other desert spas for the Labor Day holiday.

And that's not all, many homes vere filled with friends and rela-

BY THE WAY, there is so much going on in Palm Springs and throughout the resort area it's really hard to keep abreast what is happening where.

I predict that the coming winmonths will see an unprecedented record shattering building boom here. One facet of this mammoth construction spree is that homes are being erected, and that in itself spells nothing else but good for the future of

Palm Springs and the entire area. Have long predicted in this column that the area lying to the south and east of Palm Springs would enjoy its greatest expan-sion to a point where within the next five years there will be a solid line of homes all the way to

Four of us were having a bridge game one blustery winter afternoon when the doorbell rang. "It's probably just the paper boy," our hostess said. But when she opened the door she found a little girl and boy instead with bundles of newspapers. The girl explained that they had taken over the paper route for their older brother, the regular news-boy, while he carned extra money shoveling snow.

"My!" exclaimed our hostess. "You children certainly are ambitious to come out in such weather. But then you'll be able to buy a lot of soda pop and candy,

Scottish Rite Masons to Honor

Clausen; New Consistory Planned Third Degree, Sovereign Grand Inspector General in California, will address all Scottish Rite Masons at a dinner in the San Bernardino National Orange Show cafeteria at

6:30 p.m., Friday.
At that time, he is expected to issue "Letters Temporary" for the formation of a new consistory comprising an area of San Bernardino and Riverside counties.

Venerable Masters and Dignataries of six consistories in Southern California will be present to honor Clausen and the new consistory. Clausen was the former assistant to the United States Attorney in San Francisco; later he was general council for the chief engineer of the Golden State Bridge following his service in World War II he returned to private practice and was the attorney in the litigation in Alameda county which suc-cessfully challenged the validity of the act exempting certain private schools from taxation, com-monly known as proposition No. 3.

During World War II, Clausen was commissioned a captain in the Judge Advocate General's Department, advancing in his three years of service to the rank of Lieutenant Colonel, during which time he handled supplementary and con-cluding investigation of the Pearl

"We need help badly," said Cov-ey. "If there should be a fire it would be disastrous." He said the community has had a fire truck for the past five years and had been assured when they purchased it that they would be given as-sistance by the county in five years' time.
"I'll talk to Forest Ranger Tru-

man Holland about it," promised Supervisor George Berkey, "to see if anything can be done."

Covey was accompanied Mon-day by W. L. Newberry, chief of the North Palm Springs fire de-partment, and Edward Hamm, as-
